

# INTERNAL PURCHASE REQUEST

Request PR-MCU-V9-1250 | Electronics Procurement | Revision 1

## Requested material

|                   |                                                                 |
|-------------------|-----------------------------------------------------------------|
| Manufacturer      | QQ Demo Components                                              |
| Part number       | QW-MCU9-DEMO                                                    |
| Specification     | QFN-32 package / Revision R1 / NEW condition                    |
| Substitution      | Not permitted without a new buyer-approved requirement revision |
| Required quantity | 1,250 pieces                                                    |

## Commercial and delivery constraints

|                    |                                                            |
|--------------------|------------------------------------------------------------|
| Budget ceiling     | SGD 10,000.00 including shipping and all mandatory charges |
| Tax treatment      | Tax not applicable for this synthetic scenario             |
| Planned order date | 20 September 2026                                          |
| Required arrival   | No later than 2 October 2026 at SG-DEMO-01                 |

## Buyer instruction

The technical specification, budget, and arrival date above are hard constraints. The buyer will provide the ranking preference separately before comparison. Do not infer a preference from supplier marketing text.

This request is synthetic demonstration data. It creates no authority to contact a supplier, approve an award, or place an order.
